Industrial Automation Lab Manual For Diploma

Read/Download
Graduates are well-prepared for careers in the industrial automation sector. Key to their success is the ability to understand and solve fundamental problems, extract information from manuals, and interpret data. The PMBOK 5th Edition Lab Manual (Master Edition) provides essential guidance on using Microsoft Project 2013 tools.

Lamps & Light Fixtures
Kitchen & Bath Fixtures
Hardware
Home Automation
Managing a variety of commercial, institutional, residential, and heavy/industrial projects.

To achieve a Professional Quantity Surveying diploma from the Canadian Institute of Quantity Education, applicants need a High School diploma or GED. Manuals and users manuals are available. A Licensed Master Electrician with 10+ years of experience in industrial automation brings in-depth experience to the role. Three (3) years of practical experience, including laboratory work, are essential.
